The health and safety of youth in Northern Virginia are at risk.

According to the 2023 Virginia Health Survey, 13.2% of students avoided school due to safety concerns, and 17% of high school students reported bullying. Death by suicide is now the 2nd leading cause of death for children aged 10-14.

On March 25, 2025, the Shape of the Region Conference will address how to create safer spaces for youth, combat bullying, prevent substance abuse, and improve mental health access. Insight Region® will share data on our region's youth to guide a discussion with experts on solutions to help youth thrive and build a future in Northern Virginia.
